

Echoes of Faith

Echoes of Faith is a basic-level, DVD-assisted resource for the formation and education of parish catechists and religion teachers in the Catholic Schools. The use of these modules is encouraged for Catechist Certification. Produced by RCL Benziger and sponsored by NCCL (National Conference of Catechetical Leadership), it is an excellent resource.

The Theology Modules also serve as a basic faith formation resource for Catholic adults desiring continuing education/formation. Some modules may also be used for RCIA formation.

The process is easily understood and led by one of the learners. Each module is designed for four (4) one-hour sessions.

The program is obtained through the Office of Religious Education. Participant booklets are an essential part of the learning and these are purchased from the office in the quantity needed. Purchase price is \$5.00, which includes a CD-ROM for each participant.

A program director's manual is also available to borrow.
